Norwegian references

- 0 Evaluated as 100 % edible (net weight).
- 1 Old data, unknown origin.
- 2 Single data from miscellaneous sources.
- 10 Evaluated as natural zero, not analysed.
- 20 Missing value, content not known.
- 30 Evaluated as zero, i.e. below the level of quantification or level of detection for the method.
- 50 Estimated value.
- 60 Value is calculated from a factor, see "About the table values" under "More information" for component in question.
- 70 Data received from food industry to The Food Composition Table 1995.
- 71 Data received from food industry to The Food Composition Table 2001.
- 72 Data received from food industry to The Food Composition Table 2006.
- 80 Calculated value from industrial recipe.
- 81 Calculated value from in-house recipe.
- 90 Calculated value from a recipe, see "About the food groups" under "More information".
